

User Stories — Advantage & Business Outcome

Mapped by persona — what the prototype gives them, and what it changes for the fund.

Persona	Advantage	Business Outcome
VC Analyst	Grounded, source-linked company facts (not black-box outputs)	Higher trust in data, fewer bad decisions
VC Analyst	Faster time-to-insight with deterministic extraction + fewer LLM calls	Lower cost, better tool adoption by team
VC Analyst	Ranked deal pipeline based on scoring + must-have checks	Focus on best opportunities first
VC Analyst	Daily morning email with key changes / signals	Faster reaction to market & company updates
VC Analyst	One place for financials, evidence, and scoring logic	Less context-switching, faster IC prep
VC Fund CEO	More companies ingested and continuously tracked	Larger qualified top-of-funnel
VC Fund CEO	Faster progression through sourcing pipeline	More efficient deal velocity
VC Fund CEO	Transparent, auditable scoring framework	Better governance and investment discipline
VC Fund CEO	LP-ready reporting (coverage, pipeline quality, score trends)	Stronger LP narrative and credibility
VC Fund CEO	AI-sovereign posture (data control, traceability)	Reduced compliance & reputation risk
